Nesbitt's Belgians Have Winning Way

Sinc Nesbitt's Centennial Lady was Junior Champion and Reserve Grand Champion at the Royal Winter Fair, held in Toronto last week.

This colt was bred and raised by the Nesbitt's and is the only Belgian seven month old filly to have earned this honour.

"It takes many years of cross breeding to produce this line of stock," Mr. Sinc Nesbitt told the Progress this week, he went on to say, "The dam of this filly has won many a Champion Ribbon and after raising this year's Jr. Champion filly, she also won the Brood Mare Class at the

Royal."

Another one of Nesbitt's horses, Topy 3rd., won the Yeld Mare Class 4-years and over and was Reserve Senior Champion. The classes won are as follows: 1st. Four Horse Hitch of Belgians, 2nd. six horse hitch, 2nd. Heavy Draft, 2nd. 5 year old Gelding, 2nd. Get of sire (3 horses by one sire). In all the Nesbitt horses had four 1st. place wins, four second place finishes and three 3rd place.

We can be quite proud here in Minden that we have horses bred right here in town, that are champions in such a show as the Royal Winter Fair.

ALL SEATS CONTESTED FOR STANHOPE COUNCIL

At the nominations held last week in Stanhope township, all seats on council will be contested. Sinc Nesbitt, a councillor for two years will run against Reeve Gordon Sawyer, contesting the Reeves seat.

For Deputy-Reeve Fred Brooks and Elsie Bursey have their names on the slate. Six will run for council, they are as follows: Paul Dolbear, Elvin Johnson, Wm. Cowen, John Down, Verna Sawyer Eric Cross.

School Trustee will have Doreen Stinson, Ruth Brown, Evelyn Hewitt. Election will be held on Saturday, December 9th.

HYLAND MAPLE PRODUCERS HAVE FINE DISPLAY

The Haliburton Hyland Maple Producers, had a fine display at the Royal Winter Fair, which was staged last week in Toronto. The display featured all the products produced here in Haliburton County.

This showing not only was a big boost to the producers, but the county certainly gained some fine publicity, through the efforts of the Producers.

MINDEN RESIDENTS SEE REFLECTION OF PIPELINE EXPLOSION IN HUNTSVILLE

On Monday evening at 6 p.m. Mrs. Roy Hughes of Minden phoned in the alarm to the Minden Fire Department, stating that she thought there was a fire somewhere down the North Road.

Fire Chief Eldon Deacon sounded the alarm and answered the call, going down the North Road trying to detect where the reflection was coming from. The fire department went all the way to Brady's Lake before knowing the reflection in the sky was many miles still to the north-west.

The fire was that of a gas line explosion in Huntsville some sixty miles from Minden. Trans-Canada Pipe Lines Ltd. exploded in a huge ball of red and yellow flame, mud and rocks showered down on several homes near the blast. A rock hurled through the roof of one house and a 30 foot long section of the 30-inch steel pipe was blown 500 feet landing in a field.

The fire that followed a thundering bluish-white torch 500 feet high burned furiously for two hours, destroying two barns and scorching the earth in a 200-yard circle. A 110-foot long crater marked where the pipe line had been, in that condition.

after the fire was out. Twenty homes were evacuated, people ran in all directions, wondering just where the fire was and where to go for protection — fortunately no one was killed.

MINDEN SKATING CLUB HELD "FAMILY THEATRE NIGHT"

The Beaver Theatre was filled on Tuesday night as children and their parents came out to see "Trouble With Angles", a Walt Disney production.

The Minden Figure Skating Club were very pleased with the turn out and would like to thank everyone who attended and also those who bought a ticket helping to support the club.

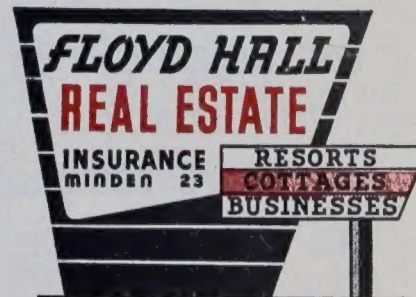

CANVASS BACK IS SAVED

It was reported last week that Bob Beene and Merle Pringle saved a canvass back from drowning in the Gull River. Duck season is still in, in these parts, and possibly it was wounded. No more details were given as to how this bird got in the water, ed where the pipe line had been, in that condition.

HERE AND THERE

by FENWICK FINCH

Driving along last week I pulled into the parking lot of a service station and a restaurant I noticed a sign as I got out — I hope it isn't prophetic. The sign was, "You can be sure of SHELL." Somehow the letter "S" had fallen off — what was left is pretty obvious.

* * *

No matter how often I read Mrs. Matalas' letter I find it hard to believe, she was so nice and co-operative. The letter was deeply appreciated by everyone who read it — including me. However, I still have some reservations on this letter — I'm afraid Mrs. M. will "mousetrap" me if I don't watch out.

* * *

You ever hear of the woman on the couch in a psychiatrist's office. The good Doctor asks her, "Now, tell me how did your trouble start?" "Just like this," she answered.

* * *

A fellow was telling me the other day that science was a wonderful thing. It couldn't pry open train windows so it air-conditioned the train.

* * *

Guess this letter of Mrs. Matalas had more effect on me than I thought — I'm at a loss for something to say — in short, that's about it for this week. By next week I should be recovered from the shock of this letter and be my normal nasty self again.

* * *

Untill next week here's something for you young people to think about. "The longest way home is the quickest way to get married."

* * *

Take care, until next week — drive carefully, even though the tourists aren't on our highways — you can still get into trouble.

Fenwick

10 NEW DRIVER EXAMINATION CENTRES THIS YEAR

Ontario is opening 10 new driver examination centres this year and enlarging or renovating 12 others, Transport Minister Irwin Haskett said today.

The number of driving tests this year is running about 10 per cent ahead of 1966 figures, Mr. Haskett said. The expansion of facilities is intended to meet the demand for tests in specific areas and to anticipate further increase in test volume.

Last year the Transport Department's examiners gave more than 600,000 tests to persons applying for driving licences. These included vision and written examinations as well as road tests.

The increase in testing this year is due partly to an increase in the number of drivers and partly to the introduction of separate tests for motorcycle drivers.

The Department now has 54 permanent centres and 103 travelling points for the testing of drivers.

New centres have been opened this year in Burlington, Fort Frances, New Liskeard and Wawa. Seven other communities that are now travel points are to get centres and most of these, if not all, should be ready for opening by the end of the year: Hawkesbury, Leamington, Orillia, Renfrew, Strathroy and Tillsonburg.

To keep pace with growth of local population and to provide facilities that are designed for the maximum driver convenience, the examination centres in 12 communities are being replaced or renovated. Most are substantially larger than the previous centres. These are in Barrie, Belleville, Brantford, Galt, Kingston, Dryden, Kitchener, Pembroke, Peterborough, St. Catharines, Sarnia and Walkerton.

CHANGING HUMAN SIZE

Man's growth rate has been changing in the last few centuries. The one-year-old infant of today is seven per cent taller and 12 to 15 per cent heavier than his counterpart in the 19th century, says Dr. M.H. Wittenborg, Boston radiologist. To-day's boys aged nine to 14 are six to eight per cent taller and 12 to 15 per cent heavier than in the last century. And in England, a youth achieves maximum height at 21 years, while in 1888 it took 26 years, he adds.

THE PEACEFUL LIFE

We have a lot to be grateful for here in Minden — like other small communities here in this district, and those north of us, life moves on without any disturbance, and very few problems.

When you read the daily papers, or watch television, you feel like you are living in a different world all together. In practically every major city, in every corner of the world — trouble broods in the form of riots, marches, murders and raids, life simply means nothing.

If the fellow up stairs made any errors, it was in the humans he created. The animals, birds, fish, plant life, soil and water are perfect — but he didn't come close to making a human worthy of breathing air.

Power, dictation, greed, selfishness, are our downfalls. Humans bicker and fight at the drop of a hat — the conclusion is always the same, everyone loses. In Viet Nam youth is being wasted, in Jordan and Israel, lives are wasted, in Canada and U.S., money is being wasted. Governments appear to do everything in their power to disturb the peace, causing disorder throughout the world.

Getting closer to home, the whites and negros clash, leaving bleeding bodies in their path. A few in Quebec would like to throw the monkey wrench into things here. Hippies create problems and crime in Toronto. Our smarter ones going to Universities, like to be heard, march and protest at the drop of a hat.

Sitting in court this week, we witnessed rebellion. Those charged with some act of breaking the law refuse to accept their punishment till the end. Lawyers, supposingly cleaver chaps, make fun of honest citizens, in defense of law breakers. Work is held up, time is wasted, money is spent because highly paid majistrates have the time to listen to garbage, by some fourth rate lawyer.

The high rise cost of living is getting out of proportion, families can no longer afford to live where they make their living. Pressure has everyone sick, needing both mental and physical help in larger areas. Dope, pills, have become many peoples crutch.

You might think after reading this, I have gone off my stick, but not is the case — living here in this little quiet community, with its friendly faces, warm smiles, and very fresh and clean smelling air, makes me realize how lucky we are. Those in most other corners of the world, would be envious if only they had a glimpse of our way of life here in this community.

For a change of pace and a little excitement, the cities are not too far away — but a steady diet of their life, would only turn me grey.

LETTERS TO THE EDITOR

Minden, Ont.

Dear Mr. Editor,

I am amazed at the publicity your paper has been giving the anticipating coming liquor vote. To listen to such enthusiastic support by citizens of various walks of life in the community, one could come to the conclusion that the whole populace should get behind this vote and give those clamouring for more liquor outlets full support.

There are however, two sides to every coin, and this issue is no exception. Our contention would be that there is no exception. Our contention would be that there is no need for more and easier access to liquor as there are ample places to obtain it for those who feel they must indulge. Prohibition will never change such indulgence.

What some people forget is that there are those in society who voluntarily abstain from the use of liquor as a beverage and are looking for a place to eat, or a vacation spot where they can be assured of quietness and a peaceful atmosphere. Such places are already hard to find.

That the business men of Min-

den have pledged themselves to promote and bear the cost of the coming liquor vote is a surprising thing. Surely, this newly formed association could do much more good for the community through some other project.

However, since they have launched into this one, it remains to be seen if the vote will carry and if so, how wisely they chose. Their children and grandchildren will be the true criterion. They may be the alcoholics of to-morrow.

Sincerely,

A. Brubacker

\$800 DAMAGE

Total damage of \$800 resulted from a two car crash near Sebright Sunday afternoon.

Police said drivers of cars involved were Amelia King, 39, of Sebright, and Gordon Kean, 53, of Orillia.

Coboconk OPP Constable Derek Jackson investigated.

First Week Hunting Results

For over twenty years the Department has operated roadside stations to check hunters and to examine the big game killed during the open season for deer. Saturdays and Sundays are the operating days because most

hunters are then on their way home.

Checking stations are manned by Fish and Wildlife staff and by members of other branches who volunteer their services. The three Lindsay District stations were active on November 11th and 12th and will be in operation next week-end. These are the Burleigh Falls station on highway 35 and the Union Creek way 28, the Norland Station on station on Highway 121. They are well marked by portable signs and are closed down when driving visibility is poor.

To prevent accidents all cars are required to stop. Non-hunters are passed through as quickly as possible.

Hunters are checked for the necessary licences and asked where they hunted, how many days they hunted and when they shot their deer. Firearms are checked to make sure they are unloaded. Invariably a few hunters (they are becoming fewer each year) are charged with having a loaded firearm in a vehicle.

The sex and age of the deer

from checking stations. Fawns are easily identified by their size and short muzzle. With the owners permission the cheeks of older animals are cut and the jaws pried open for an examination of the lower molars. When time permits, a trophy head may also be examined using a flashlight and a dental mirror. The presence of "baby teeth" or unworn permanent teeth is characteristic of 1½ years old. Other ages are determined from our knowledge of wear patterns on the teeth.

Information obtained at the checking stations is recorded on a special card for each party of hunters. During the week following the check the long process of sorting cards, obtaining totals and analyzing results begins. This is done by District Office Staff. While a news release is prepared by mid-week following the check, the complete technical summary takes several weeks.

At the present time recommendations for changes in the open season for deer are considered in the light of information obtained

WITH BOB BEENEY

The Minden Minor Hockey Association held a meeting on Tuesday night with members from the executive and coaching staff in attendance. Those who attended the meeting were Gene Whitney,, Doug Pritchard, Floyd Miller, Al Grier, Pat Warner, Pat Burk, Soup Campbell, Gerald Hicks and Ray Lawrenson.

Additions to the coaching staff was discussed and some new men were recruited to supplement the present coaches in their duties.

The association is also faced with a transportation problem. When practices started a month ago at Haliburton all of the teams travelled by bus but now it has been decided that in all cases this isn't possible. Some of the teams are now travelling by car while a few of the teams are still going on buses. It was felt when some of the teams weren't over staffed with players a bus wasn't really necessary.

The real transportation problem will be realized by the three teams entered in the Ontario Minor Hockey Association. The teams entered are the Pee-wees are in a nine team league and play a single schedule. The teams entered are Minden, Fenelon Falls, Bobcaygeon, Little Britain, Beaverton, Oakwood, Haliburton, Cannington and Sunderland.

The Bantams have been divided into northern and southern divisions. Minden is entered in the Northern division with teams from, Bobcaygeon, Fenelon Falls and Haliburton.

The Juveniles from Minden will be competing in a league with teams from Oakwood, Beaverton, Fenelon Falls, and Little Britain in a double schedule. Soup Campbell and Gene Whitney coaches of the Bantam and Juvenile teams attended a meeting in Cannington last Sunday when these schedules were arranged.

Gene Whitney has been appointed referee-in-chief for the association and is interested in finding anyone that is interested in officiating in some of the games this season.

There has always been a great demand for referees and linesmen and Gene would be interested in hearing from anyone who would like to spend some time in the referees capacity this winter.

A coaches clinic will be held in Bancroft this Saturday and Soup Campbell and Al Grier will represent the association at the clinic.

The speaker will be Major McLeod from Kingston.

OPEN SEVEN DAYS A WEEK FOR SERVICE

ROTARY CORNER

This past Mondays meeting was an interesting one, for the Rotary Club held its annual Ladies Night. The guest speaker was also quite interesting.

Bob Gorrie introduced the speaker, Newton Smith of Lindsay, a Probation officer in this district.

Mr. Smith gave us a talk on along with the need and reasons the duties of a Probation Officer, for having such officers. Mr. Smith said, "In my experience over the years, those requiring the need and help of a Probation Officer range in age from 9 to 65. They may come from any level of society." He went on to say, "in the year 1932, Probation was made available through an Ontario Act."

Mr. Smith gave the causes and reasons for the need of his office along with the percentages of those who rehabilitate. He said, "This is one office that the government feels 'pays off', for it costs around \$400 to keep one on probation, while if the same person went into penitentiary it would cost between \$3,000 and \$4,000."

The speaker was thanked by Rotarian Harold Morgan.

Tickets may be purchased from any Rotarian on a "Doll Draw". This doll is dressed in 50 one dollar bills. The draw is to take place Thursday, December 28th.

Getting back to the Bingo circuit, the Rotarians will hold a Turkey Bingo on their regular bingo night, Thursday, December 21. Twenty-one Turkeys will be given away in place of cash prizes. However the jackpot games of \$400 and \$100 will be still up for grabs, along with the share-the-wealth games.

The next special meeting coming up in December will be the Rotary Christmas Party. This is an annual get-together of members and families, around the Christmas tree, with Santa Claus as our special attraction, and speaker of the evening. This has always been a very exciting meeting, with the younger children eyeing the jolly gentlemen.

One of the Christmas Season projects of Rotary is of course the Christmas baskets given out each year. This small project has always been one that is very enlightening to the heart, and very much appreciated by the recipients.

SWEEPING NEW EDUCATION PLAN WILL ABOLISH 1,600 SCHOOL BOARDS

Premier John Robarts has announced a sweeping new education plan that will make Ontario's school boards directly responsible to the electorate for their spending.

Legislation will be introduced at the next session of the legislature to abolish 1,600 school boards Jan. 1969, and consolidate control of the province's education in 100 county-size units.

In a speech Tuesday night at the opening of a Galt school the premier said the legislation — expected in early February — will require the new education units to take responsibility for their own fund-raising by issuing separate tax bills to the public. At the present, boards requisition fund they need from municipal councils.

Mr. Robarts said the move would bring the public closer to the provincial school system.

This will insure that the ratepayer will be able to hold the appropriate unit of government responsible for the spending of tax money."

Ontario now has 1,654 school boards — 882 of them running public schools, 246 responsible for secondary schools and 526 in separate schools.

WILL REDUCE SHARPLY

When the new policy takes effect they will be reduced to about 100 with responsibility for both public and elementary schools. Another unit system is being contemplated for the separate schools, the premier said.

The new units will be established on county boundaries, except in large cities which will retain their own boards of education. In the North where there are no counties, large school units will be designated by the government.

Mr. Robarts said the change will be designated by the government.

Mr. Robarts said the change will mean an increase in school grants, but government officials said they did not expect the move

to result in a massive building plan because 90 per cent of Ontario students are already attending centralized, multi-roomed.

"The larger units will make it possible to extend to all students the benefits now enjoyed by more-favoured school systems", Mr. Robarts said.

"Under a single larger unit it is possible to provide more adequately for youngsters who have special talents or special problems".

Education officials said the main benefits would be the provision of special services such as classes for perceptually handicapped children. The new boards can provide special classes and children will not have to travel to find school areas to suit their disabilities.

AIDS PLANNING

"The larger unit", the premier said, "will facilitate planning on a broader base and will permit the development of a system of priorities and will enable a realistic provision for the financing of both capital and operating costs.

"At the same time will be possible to insure that any duplication of accommodation, transportation, staffing and the like is avoided while establishing the basis for a sound utilization of the tax dollar".

Mr. Robarts also said the change will equalize education costs across the new units.

"All of the property in this unit will now support the total education program, thereby eliminating to an even greater degree inequities within the area — it will reduce will reduce further financial inequalities between areas."

In 1945 Ontario had 5,600 school boards, by 1955, the number had dropped to 4,200 and 1964 legislation, establishing the township as the smallest unit of elementary school administration, helped reduce the number to 1,600 this year.

TWO TEAMS NEEDED FOR LARGE ENTRY OF MITES

The Minden Minor Hockey Association find that two teams will be necessary this year to handle all the mite players. Some Forty-four youngsters registered this year, forcing two teams, separated by age and ability.

The younger players will have a change in practice time at the Haliburton arena, this team will be known as squirt "B".

The new time for the following youngsters to practise will be from 5:30 to 6:30 and parents are asked to have them at the arena by 4:45.

David Arbuthnot, Corey Coneybeare, James Hicks, Craig Harrison, Roger Hicks, Andrew Hill, Alan Northey, Grant Porter, Gary Harrison, Timmy Barnes, Teddy Brandon, Brian Shaw, Jay Horsley, Gregory Carpenter, Corey Walker, Scott Miller, Herbert Rodenburg, Jim Crawford, James Hatkoski, Steve Crowe, Leslie Booth, Fraser Newton, John Palmer Mark Greir.

HYPERTENSION AND CORONARY RISK

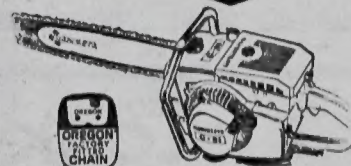

Going up? Your blood pressure, that is. It could be creeping up quietly without your being aware of it. Unless you have had it checked recently by a doctor.

This is definitely not a case of "what you don't know won't hurt you", the Ontario Heart Foundation warns. Not only can hypertension (the medical name) for high blood pressure) do serious damage to blood vessels, heart and kidneys; it also considerably increases the patient's risk of developing coronary heart disease.

A scant 15 years ago, there was relatively little physicians could do to modify the course of hypertension. Since that time modern medicine has achieved one of its most dramatic successes. The story can be told in statistics: between 1950 and 1962, the death rate from hypertension dropped more than 50% among middle-aged Canadian Men and Women (ages 45 - 64).

WINTER CARNIVAL COMMITTEE TO HOLD GENERAL MEETING

Carnival Chairman Charles Brandon has announced there will be a general meeting in the Municipal building Minden on Wednesday November 29th at 8:15 p.m. Plans will be made for the 1968 Minden Winter Carnival. All those interested are invited to attend.

WOMAN INJURED

An Oshawa woman was injured when her car went out of control on Highway 503 Saturday morning, near Furnace Falls and crashed.

Police said Naurina Elaine Dewey, 23, sustained lacerations to her hip and concussion. She was taken to Haliburton Red Cross Hospital.

Damage in the mishap was estimated at \$550.

Minden OPP Constable Michael Maheh investigated.

BANTAMS OPEN SEASON WITH EXHIBITION IN HALIBURTON

The Minden Bantam Hockey Club will hit the ice this Friday, November 24th, for their first contest of the year. They will play host to the Bobcaygeon entry in this exhibition game.

On Saturday December 2nd, in Bobcaygeon the local Bantam team will open the season as they will play their first league game.

The first of the season, is as good as any time to come out and give the local youngsters your support.

TELEVISION CAMERAS COME TO MINDEN

Recently the Barrie Television crew were in Minden shooting Christmas advertising in the F.E.A. Griffiths 5c to \$1.00 Store. Not only does the store gain much publicity, but the entire community benefits from this type of exposure. Pictured above on the right is Dr. Griffiths talking to Mr. Thorne of Minden, as pretty Miss Harrison captures the scene on film.

WOODS, WATERS AND WILDLIFE

By James Woodford

"Conservation is a case of now or never," stated Prince Philip to over 1000 conservationists and naturalists present at the Annual Meeting of the Canadian Audubon Society.

He said man can choose to destroy his environment through air, water and land pollution, over population and extermination of wildlife. Or it can work toward the "type of habitat I would want to leave to succeeding generations."

Prince Philip said in his speech the "starving millions" must be fed, but the "total subjugation" of all lands to pesticides and farming equipment will not achieve this.

He said steps must be taken to control the population explosion. He would like to see a stabilized world population necessitating no further demands on land resources.

The dinner, also attended by members of conservation, forestry and parks organizations, was one of the social highlights of the year. Most of those attending wore formal dress, drawing the comment from the Prince, a bird-watcher himself, "It's a pity we are not all in bird-watching attire — it would give the fashion

writers something to write about."

Prince Philip predicted that his generation would go down in history as having failed to sensibly control its environment.

"If we don't get the answers right now, there won't be a second chance. I, for one, do not relish the idea of my grandchildren asking me 'What went wrong?'"

JANE MCKAY WINS LEGION BURSARY

Miss Jane McKay of Minden, daughter of Mrs. Gordon McKay won the Haliburton County Canadian Legion Bursary of \$500. Miss McKay is attending Queens University.

ONLY HALF SURVIVED

In the days of Marie Antoinette scarcely six per cent of artificially fed infants survived their first year of life. Before there was knowledge of bacteria and nutritional needs, infant mortality of all children was as high as 500 for each 1,000 live born infants.

ALLEN - LEBLANC WEDDING

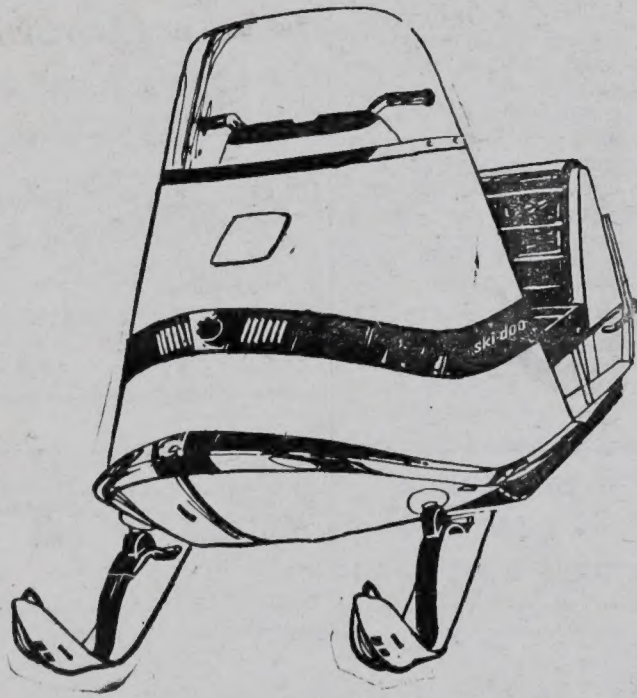

Deanna J. LeBlanc, only daughter of Mr. and Mrs. LeBlanc recently became the bride of Lawrence (Larry) Allen, son of Mr. and Mrs. Robert J. Allen of Kinmount, at a ceremony in St. Joseph's Church, Streetsville on Saturday Sept. 30 at 2:30 p.m. Rev. F. McKinnah officiated.

Given in marriage by her father, the bride was dressed in an empire line gown of white silk shantung with a cathedral train, white chapel veil with a circular head piece and carried a bouquet of white and yellow roses and carnations.

The bridal party consisted of Miss Bonnie Taylor as maid of honour while Miss Lynda Lane acted as bridesmaid. The flower girl was little Dorothy Ledingham, all friends of the bride, each wearing identical gowns of floor length autumn gold and carried bouquets of yellow carnations.

Kenneth Allen brother of the groom, acted as best man and Robert T. Allen and Allan Falconer attended as ushers. A reception was held at the Royal Canadian Legion in Streetsville.

Out of town guests were present from Nova Scotia, Toronto, Detroit, Peterborough, Lakefield, and Kinmount. Following the reception the happy couple left for a honeymoon in the Laurentians and were going to Expo on their way home. On their return they will reside in Toronto.
